

Aatish Chaudhary

Looking for a job where I can use my knowledge, skills, and experience to do great work, help the company grow, and have the chance to improve myself.

TRAINING/CERTIFICATIONS

UI/UX- Figma

NCIT Main Unit Committee / 2024

A UI/UX design focuses on creating intuitive, engaging, and user-friendly digital experiences. UI (User Interface) deals with the visual layout, colors, icons, and typography, while UX (User Experience) ensures smooth navigation, usability, and overall satisfaction. Together, they make products functional, accessible, and visually seen for users.

Leadership and career Development

NCIT Main Unit Committee / 2024

Leadership and Career Development helps individuals build leadership skills, enhance professional growth, and achieve career success.

EDUCATION

BACHELOR OF COMPUTER APPLICATION

Nepal college of information Technology, Lalitpur-Balkumari BCA 7th Semester running. / November, 2025 - Present

PROJECTS

Indoor Air Quality System

An **Indoor Air Quality (IAQ) monitoring system** continuously measures key environmental parameters such as temperature, humidity, carbon dioxide (CO_2), particulate matter (PM2.5/PM10). It helps detect pollutants, ensures healthy indoor environments, and provides real-time data for ventilation control and health protection.
